#### **Non-GAAP Financial Measures**

Certain financial measures presented in this press release, such as EBITDA, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Direct costs, Adjusted Selling, general and administrative expenses, Adjusted Net Income, and Adjusted Net Income per diluted share, are not recognized under generally accepted accounting principles in the United States of America, or U.S. GAAP. Management uses EBITDA, Adjusted EBITDA, Adjusted EBITDA, Adjusted Selling, general and administrative expenses, Adjusted Net Income, and Adjusted Net Income per diluted share or comparable metrics as a measurement used in evaluating our operating performance on a consistent basis, as a consideration to assess incentive compensation for our employees, for planning purposes, including the preparation of our internal annual operating budget, and to evaluate the performance and effectiveness of our operational strategies.

EBITDA, Adjusted EBITDA margin, Adjusted Direct costs, Adjusted Selling, general and administrative expenses, Adjusted Net Income, and Adjusted Net Income per diluted share have important limitations as analytical tools and you should not consider them in isolation, or as a substitute for, analysis of our results as reported under U.S. GAAP. See the consolidated financial statements included elsewhere in this release for our U.S. GAAP results. Additionally, for reconciliations of EBITDA, Adjusted EBITDA argin, Adjusted Direct costs, Adjusted Selling, general and administrative expenses, Adjusted Net Income per diluted share to our closest reported U.S. GAAP measures, refer to the appendix of this press release.

#### EBITDA, Adjusted EBITDA and Adjusted EBITDA margin

We believe that EBITDA, Adjusted EBITDA, and Adjusted EBITDA margin are useful to provide additional information to investors about certain material non-cash and non-recurring items. While we believe these financial measures are commonly used by investors to evaluate our performance and that of our competitors, because not all companies use identical calculations, this presentation of EBITDA, Adjusted EBITDA and Adjusted EBITDA margin may not be comparable to other similarly titled measures of other companies and should not be considered as an alternative to performance measures derived in accordance with U.S. GAAP. EBITDA is calculated as net income (loss) attributable to Medpace Holdings, Inc. before income tax expense, interest expense, net, depreciation and amortization with Adjusted EBITDA being further adjusted for unusual and other items. Adjusted EBITDA margin is calculated by dividing Adjusted EBITDA by Service revenue, net for each period. Our presentation of EBITDA, Adjusted EBITDA and Adjusted EBITDA margin should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

#### Adjusted Net Income and Adjusted Net Income per diluted share

Adjusted Net Income measures our operating performance by adjusting net income (loss) attributable to Medpace Holdings, Inc. to include cash expenditures related to rental payments on leases classified for accounting purposes as deemed landlord liabilities, and exclude amortization expense, certain stock based compensation award non-cash expenses, certain litigation expenses, deferred financing fees and certain other non-recurring items. Adjusted Net Income per diluted share measures Adjusted Net Income on a per diluted share basis. Management uses these measures to evaluate our core operating results as it excludes certain items whose fluctuations from period-to-period do not necessarily correspond to changes in the core operations of the business, but includes certain items such as depreciation, interest expense and tax expense, which are otherwise excluded from Adjusted EBITDA. We believe the presentation of Adjusted Net Income and Adjusted Net Income per diluted share enhances our investors' overall understanding of the financial performance. You should not consider Adjusted Net Income or Adjusted Net Income per diluted share as an alternative to Net income (loss) or Net income per diluted share attributable to Medpace Holdings Inc., determined in accordance with U.S. GAAP, as an indicator of operating performance.

#### Adjusted Direct costs and Adjusted Selling, general and administrative expenses

Adjusted Direct costs and Adjusted Selling, general and administrative expenses are useful to provide information to investors to evaluate core operating expenses as they exclude certain items whose fluctuations from period-to-period do not necessarily correspond to changes in the core operations of the business, but includes certain items such as certain lease payments which are otherwise excluded from core operating expenses. We believe that reporting these metrics enhance our investors' overall understanding of our core recurring operating expenses. You should not consider Adjusted Direct costs and Adjusted Selling, general and administrative expenses as an alternative to Direct costs, excluding depreciation and amortization and Selling, general and administrative expenses, determined in accordance with U.S. GAAP, as an indicator of operating performance.

- (a) Consists of period end mark-to-market fair value adjustments associated with liability classified awards and the impact of a one-time stock based compensation award to our chief executive officer. Future stock based awards activity is expected to be classified as equity for accounting purposes and will not be subject to period ending fair value adjustments.
- (b) Represents cash rental payments on two corporate headquarter buildings that are accounted for as deemed assets and subject to depreciation expense over the life of the lease. Payments made for these leases are accounted for with a principal portion and an interest portion, consistent with deemed landlord liability accounting. The interest portion of these payments is included in net cash provided by operating activities in our statement of cash flows. The principal portion is reflected as a financing activity in our statement of cash flows. These adjustments for purposes of arriving at Adjusted EBITDA, Adjusted Direct costs, Adjusted Selling, general and administrative expenses and Adjusted Net Income have the effect of presenting these leases consistently with all other office lease rentals that we have globally.
- (c) Represents non-recurring costs and recovery related to a customer bad debt and non-recurring expenses related to the settlement of an employment related matter.
- (d) Represents amortization of the discount and issuance costs deferred on the consolidated balance sheet associated with the issuance of the Senior Secured Credit Facility.
- (e) Represents advisory costs and other fees incurred in connection with the August 2016 initial public offering.
- (f) Represents the tax effect of the total adjustments at our estimated effective tax rate.
