## **Non-GAAP Financial Measures**

Certain financial measures presented in this press release, such as EBITDA, EBITDA margin, Adjusted Net Income, and Adjusted Net Income per diluted share, are not recognized under generally accepted accounting principles in the United States of America, or U.S. GAAP. Management uses EBITDA, EBITDA margin, Adjusted Net Income, and Adjusted Net Income per diluted share or comparable metrics as a measurement used in evaluating our operating performance on a consistent basis, as a consideration to assess incentive compensation for our employees, for planning purposes, including the preparation of our internal annual operating budget, and to evaluate the performance and effectiveness of our operational strategies.

EBITDA, EBITDA margin, Adjusted Net Income, and Adjusted Net Income per diluted share have important limitations as analytical tools and you should not consider them in isolation, or as a substitute for, analysis of our results as reported under U.S. GAAP. See the condensed consolidated financial statements included elsewhere in this release for our U.S. GAAP results. Additionally, for reconciliations of EBITDA, EBITDA margin, Adjusted Net Income, Adjusted Net Income per diluted share to our closest reported U.S. GAAP measures, refer to the appendix of this press release.

### *EBITDA and EBITDA margin*

We believe that EBITDA and EBITDA margin are useful to provide additional information to investors about certain material non-cash and non-recurring items. While we believe these financial measures are commonly used by investors to evaluate our performance and that of our competitors, because not all companies use identical calculations, this presentation of EBITDA and EBITDA margin may not be comparable to other similarly titled measures of other companies and should not be considered as an alternative to performance measures derived in accordance with U.S. GAAP. EBITDA is calculated as net income (loss) attributable to Medpace Holdings, Inc. before income tax expense, interest expense, net, depreciation and amortization. EBITDA margin is calculated by dividing EBITDA by Revenue, net for each period. Our presentation of EBITDA and EBITDA margin should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

### *Adjusted Net Income and Adjusted Net Income per diluted share*

Adjusted Net Income measures our operating performance by adjusting net income (loss) attributable to Medpace Holdings, Inc. to include cash expenditures related to rental payments on leases classified for accounting purposes as deemed landlord liabilities, and exclude amortization expense, certain stock based compensation award non-cash expenses, certain litigation expenses, deferred financing fees and certain other non-recurring items. Adjusted Net Income per diluted share measures Adjusted Net Income on a per diluted share basis. Management uses these measures to evaluate our core operating results as it excludes certain items whose fluctuations from period-to-period do not necessarily correspond to changes in the core operations of the business, but includes certain items such as depreciation, interest expense and tax expense, which are otherwise excluded from EBITDA. We believe the presentation of Adjusted Net Income and Adjusted Net Income per diluted share enhances our investors’ overall understanding of the financial performance. You should not consider Adjusted Net Income or Adjusted Net Income per diluted share as an alternative to Net income (loss) or Net income per diluted share attributable to Medpace Holdings Inc., determined in accordance with U.S. GAAP, as an indicator of operating performance.

- (a) Represents cash rental payments on two corporate headquarter buildings that were accounted for as deemed assets and subject to depreciation expense over the life of the lease. Payments made for these leases were accounted for with a principal portion and an interest portion, consistent with deemed landlord liability accounting. The interest portion of these payments was included in net cash provided by operating activities in our statement of cash flows. The principal portion was reflected as a financing activity in our statement of cash flows. These adjustments for purposes of arriving at Adjusted Net Income had the effect of presenting these leases consistently with all other office lease rentals that we have globally. As of January 1, 2019, we converted these buildings from deemed assets and liabilities to operating leases due to the adoption of ASC 842. Therefore, we no longer have the adjustment.
- (b) Represents amortization of the discount and issuance costs deferred on the consolidated balance sheet associated with the issuance of the Senior Secured Credit Facility.
- (c) Represents advisory costs and other fees incurred in connection with the 2017 S-3 registration statement and follow-on offerings.
- (d) Represents the tax effect of the total adjustments at 23% for 2018. First quarter of 2019 is reflective of an estimated effective tax rate of 23%. For full year 2019 guidance, a tax rate of 22.0% to 24.0% is assumed.
